## GENERAL INFORMATION.

---

### **Williamsport Dickinson Seminary**

Is an institution of high grade, with ample facilities for giving young ladies and gentlemen a superior education. It is organized upon the plans which have been approved by long experience, and adopted by the best schools in this country, embracing all modern appliances in means and methods of instruction. It was founded 1848, and is regularly chartered by the Legislature of the State of Pennsylvania, and authorized to confer degrees upon those who complete the prescribed Courses of Study.

The Seminary is under the patronage of the Central Pennsylvania Conference, being owned and practically managed by the Preachers' Aid Society. As this investment was rather to promote the important work of higher Christian education than to make money, the paramount purpose is to combine thorough instruction and careful moral training with the comforts of a good home, at the lowest possible rates.

### **Location.**

Williamsport is one of the most beautiful and healthful places in the State. It has never been subject to epidemics of any kind. Many coming to the school in poor health have returned fully restored.

In the last Census Report it is rated as the fourth healthiest city in the United States. Dr. Benjamin Lee, Secretary of the State Board of Health, in his last official report, says: "Williamsport continues to be the banner city as regards sanitation and death rate in Pennsylvania."

The city is situated on the West Branch of the Susquehanna River, has a population of more than thirty thousand, is widely known for its intelligence, its enterprise, the taste displayed in the character of its public buildings and private residences, and the moral appliances with which it is furnished. In small towns and villages the facilities for culture—intellect-

ual as well as aesthetic and moral—are generally limited, rarely reaching beyond the institution itself, and hence student life must become monotonous, lacking the inspiration which a larger place with wider opportunities affords. Forty churches, an active temperance organization, and branches of the Young Men's and Young Women's Christian Associations, embracing many of the most earnest Christians in the community, with a large library, free to all, and accessible at all times, indicate some of the social and religious advantages accessible to the young people in Williamsport.

### **Buildings.**

The buildings occupy an eminence overlooking the city, and are surrounded by beautiful shade trees, while the grounds contain six acres, affording ample room for exercise and play. The buildings are brick, heated by steam, provided with fire escapes, and supplied throughout with pure mountain water. They are lighted with electric incandescent light. The system adopted embodies the latest improvements in generating and utilizing electricity for illuminating purposes, and insures entire safety from fire or shock, so that the wires may be handled without danger. The value of an illuminant which, consuming no oxygen, leaves the air perfectly pure and at the same time furnishes abundant light, cannot be overestimated.

The main edifice, rebuilt and improved, compares favorably with the best school buildings in the country, and the Chapel is among the most attractive public halls in the city.

Both departments are furnished with ample bathing facilities including tub and shower baths and all modern appliances for comfort, and in the entire arrangement of the buildings great care has been taken for the convenience and health of the occupants.

The ladies' apartments are entirely separate from the others, *and there is no association of the sexes but in the presence of their instructors.* The happy influence, *mutually exerted*, in their association in the recitation room, at the table, and in the public exercises in the Chapel, is to be seen in the cultivation of

a cheerful and animated disposition, in the formation of good habits and manners, in ardent devotion to study, and in the attainment of high moral character. These, with many other valuable results, have established the fact that the best plan for a school is, according to the evident design of Providence in the constitution of society, on the basis of a well-regulated Christian family.

*The members of the faculty live in the building, eat at the same tables, and have constant oversight of all the students.*

### **Bradley Hall.**

The Music and Art building, named for Hon. Thomas Bradley, of Philadelphia, is an imposing structure, eighty-five feet long, fifty feet deep and four stories high. In architectural design and symbolic ornamentation it represents a very high type of utility and beauty.

This commodious building is a part of a long-cherished purpose to provide a modern Music and Art conservatory which, in equipment of space and appliances, as well as in method and character of work, shall meet the increasing demands for wider opportunity and broader culture in what has come to be esteemed an important factor in higher education of young people. We offer advantages for the study of music, vocal and instrumental, which compare favorably with the best music schools in this country, with the atmosphere of a high-toned literary institution and the safeguard of a refined Christian home.

Our directors and assistant teachers have studied abroad, as well as in the best schools in this country, and are thoroughly conversant with the latest and best methods of instruction.

While chiefly devoted to the study of Music and Art, provision is made in Bradley Hall for a swimming pool, a large and well furnished gymnasium and bowling alley for young ladies, with lockers, baths and all modern appliances for health and comfort added, as also a capacious Society Hall, a reading room and library. It is joined by an enclosed bridge with the main building of the Seminary, affording them easy and sheltered communication at all times.

### **The New Bowling Alley.**

Mrs. Helen Ferguson Tustin, an alumna of the institution, has erected and furnished for the use of the young ladies, a very fine double bowling alley. This generous recognition of the value of exhilarating exercise is highly appreciated, as it largely adds both to health and enjoyment.

### **Health.**

The value of physical culture is recognized. A large Campus, with running track, ball and lawn tennis grounds for the gentlemen and lawn tennis courts for the ladies, furnishes stimulus and opportunity for outdoor athletic sports.

The new Athletic Field toward which we have steadily looked and wrought, is completed and meets the highest demand. The ground graded and set apart for athletic uses is 478 feet long and 300 feet wide. It will certainly compare favorably with the best athletic fields among Seminaries and Colleges, and being a part of the campus, will be wholly under the control of the Institution.

As an adjunct to our fine athletic equipment, as well as a minister to health, a suitable room has been cemented on floor and side walls, and furnished with five shower and four basin baths for the young men.

An efficient Athletic Association is organized among the students, under the direction of a Professor. A public entertainment is given in behalf of the Association once a year. A Gymnasium, forty by sixty feet, supplied with the best modern appliances for physical culture, is maintained for the use of the gentlemen, under proper regulations. All young men, not physically incapacitated, may be required to take systematic exercise in the Gymnasium from two to three hours per week during Winter term. They will provide themselves with an appropriate gymnasium suit, including shoes.

Lectures on health will also be given from time to time, by an eminent physician.

### Rooms and Furniture.

The rooms are larger than in most boarding schools, being sixteen by thirteen feet and nineteen and a-half by nine and a-half feet.

Experience shows that, except in rare instances, a student is more contented and does better work with a room-mate than when alone, hence rooms are arranged for two occupants. Changes are made when the assignment proves unsatisfactory.

A student rooming alone will be charged \$12 extra a term, which must be paid when the room is taken.

Rooms for young men are furnished with single enameled iron and brass bedsteads, felt mattress and springs, wardrobe, washstand, table, chairs, bookcase, carpet, bedding, towels, mirror and crockery; but those who wish may provide carpet, bed clothing, mirror and towels, for which they will be allowed a discount of ten dollars a year. Dressing bureaus may be rented for one dollar a year for each student.

All rooms for young ladies are entirely furnished; but students may provide towels and bed clothing (for single beds) for which they will be allowed a discount of five dollars a year.

### Expenses.

Charges per school year for boarding, laundry, (12 plain pieces per week), heat, light, tuition in regular branches and room entirely furnished, are \$253.50, distributed as follows:

Fall Term.....	\$97.50	
Winter Term.....	78.00	
Spring Term.....	78.00	
		\$253.50
Church Sitzings—per term.....	.50

Reading Room—per term.....	.25	

Without tuition in any department:

Fall Term.....	\$80.00
Winter Term.....	64.00
Spring Term.....	64.00

We ask those who are seeking education for themselves, and parents who contemplate sending their children to a boarding

school, to carefully note the fact that we furnish everything embraced in a thoroughly equipped boarding school, with all the comforts of a good home, including a large, airy and *completely furnished* room, in a beautiful and healthful location, in courses of study which prepare the student for business, for professional life, or for the lower or higher classes in college at the low rate of \$253.50 a year.

Persons applying for rooms will please state whether they wish them furnished entirely or in part. Rooms will not be furnished for less than a term.

Students in Chemistry are charged for

General Chemistry—per term.....	\$3.00
Qualitative Analysis—per term.....	4.00

### Discounts.

Special discounts are made on all bills, except tuition in Ornamental Branches, when two enter from the same family at the same time; to all Ministers; all persons preparing for the Ministry or Missionary work, and all who are preparing to teach.

These discounts are credited at the close of each term, and may be withdrawn at any time if the scholarship and deportment of the beneficiary are not satisfactory. The bills of those receiving discounts must be paid or secured each term.

### Payments.

Term bills are payable in advance, one-half at opening and the balance at the middle of the term.

Twenty-five per cent. will be added to the ordinary rate per week for board, laundry, heat, light and room, when students leave before the end of the term. *No reduction or discount in boarding or tuition for less than half a term, nor furnished room for less than a term. Nor will there be any reduction for absence during a term except in case of protracted illness.*

Extra washing, ordinary pieces, 50 cents per dozen; ladies' plain gowns, 20 cents each.

*Meals in dining room after regular table, 10 cents extra.* Meals carried to rooms, in case of sickness, 10 cents each, or 25 cents per day.

When students are called away by sickness or providential

necessity, moneys advanced will be returned, subject to conditions stated above. Students dismissed or leaving without the approval of the President *may* be charged for the full term.

*No reduction for board or tuition for absence of two weeks or less at the beginning, or the last four weeks before the close of the term.*

Five dollars must be deposited by gentlemen and two dollars by ladies with the Treasurer on entering, to cover damages that the students may do to the room or other property. This will be returned when the student leaves, but not before, in case no injury has been done.

### **Admission.**

Pupils of good moral character will be received at any time, for a single term or longer period.

Must arrange bills with the Treasurer before attending recitations.

Must take at *least* four studies, unless excused by the Faculty.

Must register and agree to comply with all rules and regulations of the school.

Each student will be considered a member of the Institution until due notice shall have been given of intention to leave and permission obtained from the President.

### **Boarding.**

This department is under the general direction of the President, but an experienced and thoroughly competent Matron has immediate charge. The department commends itself by cleanliness, abundance of supply, excellence of quality, good cooking and adaptation to health.

### **Discipline.**

The discipline is firm, but mild and impartial. While every encouragement will be given to the orderly and studious, and due allowance be made for youthful indiscretion, yet the lawless and refractory cannot long remain among us.

### **Merit and Demerit.**

A daily record is kept of all the exercises of the school, from which record the student will be graded. A record of demerits is also kept. Tardiness, unexcused absences from required exercises, and all disorderly conduct, will subject the student to demerit marks. Such marks bring a private reproof before the Faculty, a public reprimand before the whole school, and may send the offender away. Sessional reports are sent to parents.

### **Government.**

Our system of government seeks to encourage self-control rather than control by statute law and rule. It deals with each one as an individual, as well as a part of the school, making each one largely the arbiter of his own immunities and limitations. This principle will be emphasized in the coming year.

Manliness and womanliness manifested in a uniform recognition of relations to school and school life; appreciation of what opportunity means as a value and factor in the acquisition of learning and culture, and courteous, straightforward, truthful dealing with teachers and fellow students in matters pertaining to mutual associations in the life and work of the school, will earn and obtain such privileges as properly consist with the purpose for which school life is desired and maintained.

But indolence, evasion of duties implied in the relations of student and school, unmanly or unwomanly attitude toward the life assumed in entering the school, and especially equivocation or prevarication in statement, bearing or living, will be treated as weakness or positive vice, imposing such correctives and limitations as each individual case may demand.

### **Honors.**

No student whose deportment is unsatisfactory will be allowed to contest for class honors.

### **Religious Character.**

Williamsport Dickinson Seminary is not sectarian in any sense, but it is positively and emphatically Christian in its administration and work. By combining practical Christian

teaching with thorough intellectual training, under the personal supervision of Christian men and women, especially qualified by education and experience, the school has established a reputation among literary institutions and has won the confidence of the public in a degree of which its friends and patrons may be justly proud.

### **Religious Services.**

Every boarding student is required to attend religious services in the Chapel daily, as well as public worship morning and evening every Sabbath, *at such place as parents or guardians may designate*, the President assenting, unless excused.

A Bible reading or special service conducted by the President, will be substituted for the evening services as often as may be deemed proper.

N. B.—Each student must be supplied with a Bible, to be read, *without note or sectarian comment*, in the services of the Chapel. The whole school read in concert.

To promote the spirit of worship, we advise each student to procure the Hymnal of the Methodist Episcopal Church, which is used in the Chapel services.

A general experience meeting is held every Sabbath at half-past eight A. M., and generally a brief service of song at six P. M. Also a prayer and praise meeting on Wednesday evenings. Attendance upon these services is optional with the students.

### **Religious Organizations.**

A Young Woman's Foreign Missionary Society has been in successful operation for years. This society acquires and diffuses missionary intelligence, creates and maintains an interest in the work of the General Society, and prepares its members for efficient service as centres of Christian influence at their homes when school days are ended. It has largely contributed to the education of a missionary for India.

The Young Men's and Young Women's Christian Associations maintain brief devotional meetings daily, and on the Sabbath each holds a special service of such character as circumstances may seem to demand.

RECEPTION ROOM.

### Home Features.

The Seminary is a boarding school of the highest grade, taking rank among the very best, with superior appointments and appliances for the health and culture of its students. It is also a well-ordered home. First of all, the President and his family reside in the building, forming a part of the school, and are always accessible to all its members. The wife of the President entertains the Young Woman's Missionary Society once a month in her apartments, and occasionally receives the entire school in her parlors, while in times of sickness she visits the students in their rooms, giving such suggestions and directions as the experience of a mother may supply. Again, the members of the Faculty are so distributed throughout the building as to be readily accessible at any time for such help as the students may desire outside of the recitation room. Again, recognizing the value of social culture as a factor in preparation for a useful life, the President and the Faculty give a formal reception once each term to the whole school in the Chapel, which for the occasion is transformed into an attractive drawing room, while weekly informal "socials," continuing from thirty minutes to an hour, after the public Friday evening entertainments, relieve the monotony of routine work, cultivate a cheerful spirit and meet the natural desire for social pleasures. In these and all practicable ways an appeal is made to the higher elements in the nature; mutual interest inspires mutual respect; opportunity is afforded to study character, and the school becomes a pleasant and safe Christian home, as well as a place for careful mental and moral training.

### Special Lectures.

Special lectures in the form of familiar talks will be given each term by the President. These lectures will cover the discussion of social ethics, the care of health, how to eat, how to work, how to play, how to rest, current literature and current events in relation to school life, with other subjects which may be helpful to young people who wish to make the most of opportunity.

The President will also give a course of lectures to young men preparing for the ministry, covering such themes as may be of value to them as preachers, as pastors and as citizens. Attendance at these lectures is required of all candidates for the ministry.

Lectures on current events, phases of school life and work, distinguished characters, science, literature, art, travel and kindred subjects, are given by members of the Faculty each Wednesday morning after Chapel services.

### **Young Ladies.**

Constant and systematic efforts are made looking toward the general culture of the young ladies committed to our care. The lady members of the Faculty take personal interest in all things pertaining to their welfare, and are intimately associated with them in recreation hours.

Every Saturday short lectures are given to all young ladies on social culture, literature, art and kindred topics.

Young ladies are chaperoned to and from church in the evenings, to entertainments, to games, to trains and on drives. They may only receive calls from gentlemen on written request from parents or guardians addressed to the President.

### **Instruction.**

Our methods are modern, and adapted to the need of the students. No pains are spared to give thorough, practical and scholarly training in all departments by teachers of superior attainments and experience. Besides instruction in connection with the text book, lectures illustrated by experiments are given from time to time.

Students in Music have opportunity to hear distinguished artists, which is of great advantage in acquiring a correct taste, as also in enlarging their knowledge. In addition to frequent Recitals by musicians of recognized ability, eminent musicians from a distance frequently give concerts, to which our Music pupils are admitted at reduced rates.

### **Post-Graduate Work.**

We are prepared to do post-graduate work in Modern Languages, Music, Art, Chemistry and Physics.

### **Literary Exercises.**

In addition to class work, public exercises are held in the Seminary Chapel every Friday evening, at which the Juniors and Seniors in literary courses read essays or deliver original speeches, interspersed with vocal or instrumental music, furnished by the Music Department.

### **Literary Societies.**

There are three flourishing Literary Societies connected with the Seminary—the Belles Lettres, the Gamma Epsilon and the Tripartite Union. The first two are in the gentlemen's and the last in the ladies' department. Each has a well furnished hall and a judiciously selected library, aggregating more than two thousand volumes.

### **Reference Library.**

By the generosity of Mr. Alexander E. Patton, a Director of the Seminary, the foundations of a Reference Library have been laid. Already many volumes, selected with intelligent discrimination, comprising the latest and best publications in the various departments of History, Language, Literature, Science, Music and Art, are accessible to all students.

It is intended to make this library increasingly valuable, not so much by the number as by the quality of the books it contains. We appeal earnestly to all friends of the Seminary, and especially to former students, to send contributions in money or in books of standard value. No others are desired.

Mrs. A. P. Dysart, the daughter of Rev. James Curns, donated one hundred and seventy volumes from her father's library for such use as the President of the Seminary deemed best. These books are placed in the Reference Library and are designated the "Rev. James Curns' Alcove." They are of special interest and value to young men preparing for the ministry.

### **Teachers.**

If those preparing to teach desire it, a Normal Class will be organized during the Fall and Spring terms. The Course will comprehend special instruction by lectures on the Theory and Methods of Teaching by the President. *No extra charge will be made.*

### **Candidates for the Ministry.**

A preacher who can, when necessary, conduct the singing in a prayer meeting and in a revival service, acquires a power for good which cannot otherwise be attained. Indeed, the usefulness of a preacher is largely augmented by a knowledge of music and ability to sing. Recognizing this fact, we have arranged to give weekly lessons in singing and careful instruction in voice culture to all young men who are preparing to preach, at the nominal cost of *one dollar per term*. This provision also includes young women who are preparing for either home or foreign missionary work.

### **Students of Limited Means.**

We have organized a system by which a limited number of students may earn a part of the cost of education.

We now give light employment, not appreciably interfering with study, to twenty-five young men and three young women, paying from ten to twenty-five per cent. of the bills. Applicants for these positions are enrolled and vacancies are filled in the order of application, preference being given to those in the school. Applicants must be recommended by their pastor, or some responsible person, as worthy of help. No one will be retained who is not earnest in his studies and faithful to all required duties.

### **Loans.**

Various Boards of Education accumulate beneficiary funds which are loaned to needy and worthy students upon recommendation of the home church and the approval of the Faculty.

These loans are for a specified amount, without interest while the student is at work in this institution and for two years afterwards.

### Advice to Parents.

1. Try to have your children here on the first day of the term, but not before, as we shall not be ready to receive them. The classes are formed on the second day, and it will be better for all concerned that the student start regularly with his class.

2. If possible, do not call them away during the session. When called home during the term, the time of going and returning must be specified in the request. Absence, if only for a few days, disarranges the class, and is generally the beginning of irregularity on the part of the student.

3. Do not allow your children to leave the school before the examinations, unless it cannot be avoided. Serious inconvenience to all concerned often arises from a neglect of this caution.

4. Supply them very sparingly with spending money. Parents cannot be too cautious on this point.

5. Select for your child one of the instructors as a patron, to distribute his funds. In this way a more judicious use of your money will be made, and your child will be kept from many temptations.

### Outfit.

The gentlemen should be provided with an umbrella, and also a pair of slippers to be worn in the room. The ladies must be supplied with thick walking shoes, and umbrella, India rubber overshoes, water-proof cloak and a suit for exercise in the Gymnasium. Their attire for general use should be neat and simple, but not elegant or expensive. *All wearing apparel must be plainly marked with full name of the owner.* We suggest that in addition to towels, napkins and napkin ring, each pupil bring a knife, fork and spoon, *for use in case of sickness.*

### Day Pupils.

A large, well-lighted, well-ventilated study room, properly furnished with desks, is provided for our day pupils.

Recitations will not be heard in this room, but a thoroughly competent person will have charge during the school hours of

the day and direct students in their work, giving especial attention to backward pupils and those who have not learned how to study.

Day pupils in the Primary branches will be charged \$10.50 for Fall term and \$8.00 for Winter and Spring terms each; in higher branches \$21.00 for Fall Term and \$17.00 for Winter and Spring Terms each.

All day students pursuing regular studies will be required to observe the following rules:

1. Attend Chapel exercises, unless excused by the President.
2. Spend the intervals between recitations in the study room.
3. Present written excuse from parent or guardian for all absences.
4. Must not visit the rooms of boarders without permission.
5. Must deposit \$1.00 with the Treasurer of the Seminary when they enter to cover damage to Study Hall or other property. This will be returned when the student leaves, but not before, providing no injury has been done.

### **Examinations.**

Students who make a term record of eighty per centum and upward in all subjects will not be required to take examinations in those subjects in which they have made a term record of ninety per centum and upward; but if the term standing in any subject falls below eighty per centum examinations will be required in all subjects pursued during the term.

### **Apparatus.**

The scientific department is furnished with very complete outfits of Physical and Chemical Apparatus. The new Chemical Laboratory meets a long-felt want in this department. A large room, with the best light, has been fitted with the most approved modern appliances for Qualitative Analysis. Thirty-two new desks, each furnished with gas, sink and water, afford every advantage for individual work by the student.

*In the Museum—*

Alcoholic specimens of the Human Heart, Brain, Stomach, Kidneys and Intestines.

Bock-Steger Models of Ear, Skin, Eye, Larynx, Alimentary Canal, Lungs, Head, Brain and Tongue.

A finely articulated Human Skeleton is accessible to the classes in Physiology and Anatomy. A valuable collection of Microscopic slides has been presented for the use of the Department.

A series of Drill ores, a collection of different Woods in the form of blocks, showing bark, grain and finished surface, and a collection of Polished Granite specimens.

*In Physical Apparatus—*

A Holtz Machine, Gold Leaf Electroscopes, Pith Ball Electroscopes, Ruhmkorff Coil, Morse Key and Register, a model Telegraphing Machine, a Queen's Superior Air Pump; two large globes, Still, furnishing distilled water for all work in Chemistry, Oxyhydrogen Light with all accessories, a Queen's Excelsior Lantern, two Dynamos and a Camera.

*In Chemical Apparatus—*

Pair Delicate Balances, sensitive to one milligram, Assay Furnace, full set of Pipetts, Burets and Graduates for Volumetric Analysis.

*In the study of Botany—*

A large collection of rare Botanical specimens, gathered in Kentucky and mounted for use.

**Endowed Scholarships.**

Many young men and women, with large capacity for usefulness, and ambitious to acquire an education, are limited in means. Comparatively little help, with such aid as the Seminary affords to worthy students, would suffice to supplement their resources. The interest on one thousand dollars, and in many instances the interest on half that sum, would inspire hope and stimulate the spirit of sacrifice in families and among

friends that would secure to many young men and women of excellent promise, the mental training and moral culture of the Seminary.

This institution will be glad to accept endowed scholarships of any amount which may be constituted in the following manner:

1. The founder of each scholarship shall have the privilege of naming it and of determining the conditions on which it shall be awarded.
2. These scholarships may be maintained from year to year by the annual payment of the interest on the principal sum until the principal sum is paid.
3. The income of a scholarship when not awarded shall be at the disposal of the President and Board of Directors.
4. Applicants for a scholarship must present satisfactory testimonials of good moral character, and, to retain it, if awarded, must do satisfactory work.

Mr. DeWitt Bodine, of Hughesville, Pa., an alumnus of the Seminary, has the honor of founding the first full scholarship in this institution. It is to be filled from the public schools of Hughesville by competitive examinations and is designated

"THE DEWITT BODINE SCHOLARSHIP."

It pays all expenses of board, tuition, etc., in any regular course of study.

Who will imitate Mr. Bodine's example? Are there not generous men and women among our alumni and friends ready to invest a portion of their wealth where it will be secure and work for God forever? Any sum will help, and four thousand dollars will found a ministry or missionary scholarship in this Institution and maintain it perpetually.

THE ALEXANDER E. PATTON SCHOLARSHIP.

Mr. Alexander E. Patton, of Curwensville, Pa., has founded a perpetual scholarship of one thousand dollars, the conditions of which are, that the interest on this sum shall be paid annually

in equal amounts to the two applicants who attain a required rank highest in scholarship and deportment in the Junior class.

#### THE ELIZABETH S. JACKSON SCHOLARSHIP.

#### THE WILLIAM L. WOODCOCK SCHOLARSHIP.

Mr. William L. Woodcock, of Altoona, Pa., has founded a perpetual scholarship of five hundred dollars, the conditions of which are, that the interest of this sum shall be paid annually to the applicant who attains a required rank second in scholarship and deportment in the Sophomore class.

#### THE S. Q. MINGLE SCHOLARSHIP.

S. Q. Mingle, of the City of New York, in the State of New York, founds a perpetual Scholarship in the Williamsport Dickinson Seminary, located in the State of Pennsylvania, by the payment of Five (\$5,000) Thousand Dollars, to be known as the S. Q. Mingle Scholarship.

The conditions of this Scholarship are: First, That the principal sum shall never be employed otherwise than as hereinafter designated; namely, as the foundation of a Scholarship in the said Williamsport Dickinson Seminary. Second, That the proceeds from this Scholarship, in interest or otherwise, shall be paid annually to the person or persons appointed to the Scholarship as hereinafter described. Third, That the proceeds may be paid to one or more persons as may be deemed best by the persons whose duty it is to fill it. Fourth, That the incumbent of this Scholarship shall be of good moral character; of studious habits, making a record in scholarship and deportment approved by the President and Faculty of the said Seminary. Fifth, That the President of the said Seminary, with the approval of the Directors of the same, shall appoint the person or persons who shall hold the said Scholarship; provided, however, that the

donor may designate the person or persons to hold the Scholarship from year to year during his natural life. Sixth, That if for any reason the said Williamsport Dickinson Seminary shall cease to be conducted as an institution of learning under the auspices of the Methodist Episcopal Church this Scholarship shall revert to the estate of the said S. Q. Mingle.

THE EDWARD J. GRAY SCHOLARSHIP.

The President of the Seminary has founded a perpetual scholarship of one thousand dollars, the conditions of which are, that the interest on this sum shall be paid annually, in equal amounts, to the two applicants who attain a required rank highest in scholarship and deportment in the Senior Class.

THE BALTIMORE SCHOLARSHIP.—The Woman's College of Baltimore extends to this Seminary the privilege of awarding annually to a lady graduate a scholarship of the cash value of *five hundred* (\$500.00) dollars, entitling her to a four years' course of study in that College.

The selection of the incumbent shall be made upon the nomination of the President of the faculty of the institution from those young ladies, members of the graduating class, who shall have entered their names as competitors for the scholarship previous to the examination, and who shall be able to enter the Freshman Class without conditions.

Contestants for these scholarships must register not later than the close of the Winter term.

To aid any one who may desire by gift or will to found a partial or full scholarship to assist worthy young men or women in preparing for the ministry or mission work, or for any other useful occupation, forms are appended which may be used:

I give, bequeath and devise to the Williamsport Dickinson Seminary, located at Williamsport, in the county of Lycoming, State of Pennsylvania, the sum of                      dollars (if stocks, bonds or other personal property specify same,) to be used for the purpose of (here state definitely the object for which the money or property is to be used) ; said corporation to have and

to hold and to employ the same for the purpose above named and the receipt of the treasurer thereof shall be a sufficient discharge to my executors for the same.

If real estate is to be given, this form will answer: I give, bequeath and devise to the Williamsport Dickinson Seminary, located at Williamsport, in the county of Lycoming, State of Pennsylvania, the following lands and premises (here describe definitely), to have and to hold, to said corporation, its successors and assigns forever, the proceeds of which shall be employed in (here describe the object).

### **Means of Access.**

Williamsport is eight and a-half hours from New York, six hours from Philadelphia, nine hours from Pittsburg, six hours from Baltimore, three hours from Harrisburg, and three hours from Elmira, and is reached directly by the Pennsylvania, the Philadelphia & Reading, the Northern Central, the Philadelphia & Erie, the New York Central railroads, which pass through the city, and as these have connections directly with all the great railroads, is readily accessible from all quarters.

### **Graduates and Former Students.**

It may be safely estimated that from ten to twelve thousand persons have received Academic instruction, covering from one to four years, in Williamsport Dickinson Seminary, while nine hundred and forty-two have completed the prescribed curriculum, graduating with the degrees the Institution confers. We desire to bring all these into active sympathy and co-operation with their *Alma Mater*, and hence we ask all persons to whom this notice may come, who have been students here, to send us their address, with any information concerning their personal history that may be of general interest, as we wish to compile a complete catalogue of all the students now living.

There is a general meeting of the Alumni every year, the day before Commencement. We extend a most cordial invitation to all old students to attend the meeting this year, which will be

held June 17, in the afternoon and evening. If you cannot come, let us hear from you by letter.

And now, may we not ask you to aid in enlarging the sphere and increasing the power of our *Alma Mater*? You can do much in many ways, but you can at least direct those looking for a good boarding school to ours, or send us their address on a postal card. Carry the Seminary in your heart. She is doing a worthy work, and earnestly asks her sons and daughters to help her.

The language "elected" in the Courses of Science and Literature and Practical Science will be retained throughout the required two years.

The ladies are allowed to substitute a course in Music, Drawing and Painting, German or French, for Greek and Analytical Geometry and Calculus.

The gentlemen may substitute two years in Greek or German for Analytical Geometry and Calculus.

The election or substitution of German, French, Music or Drawing and Painting does not remit the regular tuition for these branches.

Essays by the young women and speeches by the young men, one each term, delivered at the regular Friday evening exercises, are required as a part of the Literary Courses in the Junior and Senior years.

## COURSES OF STUDY.

---

In order to meet the wants of a larger class of students, ten regular Courses of Study are provided, namely: The Normal English, Belles Lettres, Science and Literature, Classical, Practical Science, College Preparatory, Art, Piano, Voice and Expression. Students may adopt any of these Courses exclusively, or may select such studies from them as they desire, subject to the approval of the Faculty.

The Normal English Course is designed to meet the increasing demand for teachers in our Common Schools, and is heartily commended to young ladies and gentlemen who desire thorough instruction and drill in the English Branches.

The Belles Lettres Course is especially arranged to accommodate young ladies who may wish to omit the Higher Mathematics beyond Elementary Algebra and Geometry. It thus affords opportunity to connect studies in Music and Art with a well-selected Course in Literature and Science.

The Course in Science and Literature is intended to give wider culture and more thorough mental discipline. It differs from the Classical Courses mainly in that it omits the Greek Language entirely, and makes Latin elective with German or French during the first two years. Before entering upon this Course the student must be thoroughly acquainted with the common English Branches.

The Classical Course is much more extensive than is ordinarily pursued at Seminaries. It will compare favorably with the Curriculum adopted by our best institutions of learning. We offer it with entire confidence to young men who are preparing for professional life; also to young ladies who aspire to superior intellectual culture. The preparation for this Course is a thorough knowledge of the studies embraced in the Academic Course.

The Practical Science Course covers the required preparation for admission to schools of Technology and to Industrial Courses in our best Universities and Colleges. However, it is especially arranged to meet the increasing demands for scientific and literary instruction by those who contemplate an Academic training. As a preparation for assured success in Industrial occupations we heartily commend it.

The College Preparatory Course is arranged for those who desire thorough instruction and systematic drill in all branches requisite for admission to our best Colleges and Universities. We commend it especially to parents who wish to place their children under the watchful care of experienced teachers, while they receive the literary culture of a high-grade institution of learning and enjoy the social advantages of a well-regulated Christian home.

## Courses in Reading.

A knowledge of Literature is a requisite of general culture, yet observation has shown that no branch of education is more neglected. The majority of students devote little time to a course of collateral reading, and consequently leave school without a well-defined taste for literature. To promote a correct use of the English Language, to enlarge the vocabulary, to develop a love for books, and to serve as an introduction to the English Classics, is the purpose of this Course.

To present a graded scheme in the study of literature is impossible, but the aim of this plan, which extends through four years, is, first, to gain the attention of the student by a pleasing narrative and then gradually to advance him to more solid subjects,

Two works are read each term, except in the Academic and Sophomore years, and an examination is given on each work, one at the middle and the other at the end of the term. The examination covers the general points of plot, style, idiom and vocabulary.

Any student preparing for any particular College will be examined in the work prescribed by that College, upon application. The total cost of all books in these Courses does not exceed fifty cents per term.

## **Department of Music.**

MISS MAY TRIMBLE STUART, Director.

The aim in this department will be to give thorough instruction, both in the technique and the aesthetics of the art; and to this end only standard text-books and studies will be used. Students completing the Course will receive a Diploma.

### **Theoretical.**

A thorough course in Harmony and History of Music is obligatory, in both of which a satisfactory examination must be passed before graduation.

An opportunity for practice in singing, sight-reading and cultivation of musical taste, is given in the Chorus Class, which meets twice a week. This year they have studied The Fatherhood of God, a cantata by P. A. Schnecker; selections from A Collection of Glees and Part Songs, arranged by Max Spicker; Estudiantina, by Lacome; and church music.

Students may enter the Courses in Instrumental or Vocal Music at any point for which they are prepared, and are advanced according to their ability and proficiency, not according to the number of terms taken.

Students not wishing to take the Graduating Piano Course may take a Course on the Reed Organ, selected by the teacher, and will be granted a Diploma, if they acquire ability in reading ordinary church music at sight, and in a manner sufficiently clear for purposes of accompaniment.

A full Course of Violin Playing has also been prepared for the benefit of those who are seeking superior attainments in this department.

Pupils have Vocal Culture free of charge, in classes. Attendance at Lectures on Composers required.

Weekly Musicals are held in Bradley Hall, in which all music students take part. They are not intended as concerts for the public, but to give an opportunity to become accustomed to an audience. Lectures on the lives of musicians and talks on current events in the musical world are given by the Director. Students have also opportunity to play at the Friday rhetorical exercises held during the entire year, at the society anniversaries and during Commencement week.

### **Ensemble Playing.**

To enable players to acquire proficiency in time and rhythm, considerable attention is devoted to work on two pianos (four hands and eight hands).

### **Public Playing.**

Every graduate in Music is required to give a recital in the senior year. The program includes ensemble work, with examples of the classic, romantic and modern schools.

### Faculty Concerts.

The music Faculty give public recitals three times a year.

### Artist Concerts.

Lectures and recitals by the leading artists in the country are given both in the city and at the Seminary, which all music pupils have opportunity to attend.

## Expression.

MISS AUGUSTA HELEN GILMORE, M. E. L.

Expression is recognized as a most important branch of education. This department is under the supervision of a thoroughly qualified and experienced teacher, and will include a careful vocal drill, and practice in the entire range of expression.

It is taught as an art, resting upon recognized laws of nature,

which are so explained and illustrated as to give a thorough understanding of all the principles upon which this art is based.

The orator is educated, not by fashioning him after certain models, but by quickening and developing all the intellectual faculties, cultivating the imagination, disciplining all the agents of expression, and then leaving him free to express his thoughts and emotions in accordance with his own temperament.

Every graduate in Expression is required to give a public recital.

---

### **Methods of Instruction.**

The instruction in the Primary Department is based on the inductive and objective methods, classes having objects presented which are studied analytically. A series of Supplementary Readers, which include writings of the best literary and historical authors, has been introduced. The language lessons embrace Memory Lessons, Dictation Exercises, Stories read for Reproduction, Exercises in Letter Writing, Word Pictures and Composition Writing. Especial attention is given to Arithmetic and the analysis of problems. History and geography are taught with the aid of maps, books of reference and the best text-books. Information Lessons or elementary science studies in Natural History, teach the classes to observe and to make careful note of the objects, of the animal, plant and mineral kingdoms. The methods of study consist chiefly in examination of leaves, rocks and insects.

Instruction in Expression and Physical Culture is given by the teacher of these branches. The teacher of Vocal Music has organized a chorus class for the pupils in this department.

In Elementary Arithmetic, Grammar and Geography the catechetical method is largely employed, but in Higher English the same course is adopted which prevails in the more advanced branches of study. The pupil is taught to study the text-book by topics rather than by sentences or paragraphs, and encouraged in the lecture room to give the substance of what he has learned, in his own language. In this manner, while he is adding to his store of knowledge, he is enlarging his vocabulary, and while he is evolving principles and acquiring facts, he is increasing his power of expression, and thus unconsciously, it may be, but nevertheless surely, he lays the foundation of an easy and concise style of composition.

In English and American Literature, the origin of the English language and the growth of the literature are carefully traced. In this work the most interesting facts in the lives of the best authors and their principal productions are brought under review.

Instruction in Psychology covers the second and the third terms of the Senior year. It embodies definitions of the mental faculties, and careful analysis of intellectual processes, with a brief history of the science, the main purpose being to stimulate the Student to think and investigate for himself.

Ethics and Logic are taught in the Senior year. Text-books are used and daily recitations are required. Class inquiries and discussions are encouraged, and familiar lectures are given from time to time by the teacher.

### **Natural Science.**

In the department of Natural Science the underlying aim is to teach the Student to think and observe for himself, and at the same time to give him such a fund of practical knowledge as will fit him for the active duties of life. In all the branches the text-book is used as a means to gain a knowledge of topics rather than to be studied as an end in itself, and as far as possible the Student is led to the study of the objects themselves. No pains are spared to cultivate habits of clear, accurate and systematic thought and expression.

Geology is taken during the first term of the Senior year. A practical knowledge of the common rocks and minerals is acquired, and excursions are made to quarries and regions which illustrate various geological formations. Each Student makes a written report and collects characteristic specimens and fossils, representing the seven different geological formations, admirably presented to view by outcrops within a few miles of the Seminary.

An Elementary Course in Biology is pursued in the Spring Term of the Senior year, in which thorough preparation is made for technical advanced work. The simpler laws of life are taken up and practical study is made of the fern, earthworm and frog. The oyster, crab and cat are also dissected and the general relation in structure and physiology of plants and animals is carefully brought out.

Physics embraces two terms of the Junior year. Mechanics, Sound and Heat are taken in the Fall Term; and Optics, Electricity and Magnetism in the Winter. The principles and laws are illustrated as far as practicable by apparatus. The relation between the different branches is held strongly before the mind, and practical questions, drawn from everyday life, are constantly brought forward to teach the Student to apply the principles learned in the text-book. The subject of Electricity is presented by a series of experiments and lectures, on which full notes are made by each Student.

In Botany, the laboratory method is followed. Compound microscopes are accessible to the class, and pupils are provided with a powerful lens and apparatus for plant dissection. The work is taken up in the following order: Organs of Plants, growth from seeds, root, stem, leaf, flowers and fruit; Natural Groups of Plants, with especial studies of Algae, Fungi, Muscineae, Filicineae, etc.; Gymnosperms, Monocotyledons, Dicotyledons, with studies of special types under each heading.

The study of the plants themselves, their physiology and anatomy, is made the important thing rather than plant analysis. Lectures on the various plant relations are frequently given. A valuable collection of Botanical specimens from Russelville, Ky., has been presented by Miss Myrtle Gray.

Chemistry occupies the second and third terms of the Senior year. During the Spring Term there is also elective work in Analytical Chemistry. The chemical laboratory has been fitted up and is fully equipped with apparatus and chemicals for advanced technical work. The room is furnished with individual tables, each supplied with gas, Bunsen's burner, ring stand, water, case with full set of reagents, and all necessary apparatus for illustrative experiment and qualitative analysis. There is also a complete set of apparatus for volumetric and gravimetric analysis and assaying. Each Student keeping full notes on the experiments which are performed individually, becomes thoroughly familiar with chemicals and manipulations.

A dark-room has been built and furnished with a complete photographic outfit, and Photography is taught during the Spring Term.

Lectures on subjects of interest to the department are given from time to time, illustrated by stereopticon views projected by a new oxyhydrogen light.

### Ancient Languages.

In the departments of Greek and Latin, scrupulous attention is given to the grammatical structure of these languages, their relation to English, the illustration and application of principles, accurate translation, and to the literary significance of each author studied. Mythology and Classical Geography are studied in the Senior year. It is aimed to give the Classics by these means their

proper place as an aid to expression, to a thorough knowledge of our own language and to the pursuit of other languages, as well as to afford the usual mental discipline. Careful attention is also given to those preparing for College or professional study.

### **Modern Languages.**

The Courses in French and German are designed to give the Students a thorough knowledge of grammar, ability to read at sight, and an appreciation of standard literature, both classical and modern. The lives of authors are studied in connection with their work. Instruction is given, as far as can be made practicable, in the language taught, and conversation is gradually introduced in all classes. Especial attention is paid to pronunciation and to written work. Dictation and committing poetry to memory, form a part of the regular work.

Informal French and German receptions, where only the language taught is used, are held from time to time. Dialogues, declamations and songs form a part of the evening's entertainment.

### **Mathematics.**

The Course in Mathematics is co-extensive with that in the majority of our best Colleges. Although the study is considered as chiefly disciplinary, the aim throughout the Course is to acquaint the Student with the instruments in most familiar use by the practical scientists and mathematicians of the day, as well as to strengthen his mental faculties and increase his logical acumen. At the commencement of each subject a familiar lecture is given on its history and practical utility.

A study of the courses pursued will indicate the extent of the work done.

### **History and Rhetoric.**

In the study of History the object is to familiarize the Student with the main facts and principles, thus forming a foundation on which to build by future reading and investigation. To this end the text-book is thoroughly studied in connection with a Manual of Classical Antiquities and an Atlas, while at the same time the Student is encouraged to consult other authorities and bring in additional matter bearing on the subject. Recitations are by the analytical and topical methods.

Special attention is given to instruction in Rhetoric, on account of its great value to the Student. The principles of good writing are studied and analyzed with a view to their practical application.

During the last term much of the time is devoted to original productions in the various departments of literary composition, on themes assigned by the teacher. These productions are read before the class, where general criticisms are offered, after which they are handed to the teacher for more careful correction.

At the annual Relay Races, held April 23d, under the auspices of the University of Pennsylvania, the Seminary took third prize in its event with the Boys' Latin School, Peddie Institute, Dickinson Preparatory School, Marston University School, Wyoming Seminary and Perkiomen Seminary.

On May 21st, Bucknell University Freshmen were defeated in a dual meet with the Seminary by fifty-nine points to forty-five. Bucknell won six firsts and five seconds; Dickinson Seminary, seven firsts and eight seconds.

In the dual meet with Wyoming Seminary on May 28th, the final score resulted as follows: Dickinson Seminary 53, Wyoming 61.

During the season just closed, the school records in the broad jump, the 120 yard hurdle and the one-half mile run have been broken.

## Opinions of Patrons and Friends.

— — —

That the public may know the estimate placed upon the Seminary by those who are especially acquainted with its management and work, we append some testimonials received from patrons and friends :

WILLIAMSPORT, April 26, 1902.

REV. DR. EDWARD J. GRAY,

Dear Sir: Having been a patron of Williamsport Dickinson Seminary for several years past, and having become familiar with the work done therein, I feel safe in saying that in my judgment it is one of the best educational institutions in the country. I am persuaded that any student who will make a reasonable use of his or her time and opportunities can obtain an education at this institution that will thoroughly fit him or her for any occupation in life. It is a safe school and thoroughly equipped to do the work it assumes to do. Its management is excellent.

H. T. AMES,  
Attorney-at-Law.

RIDGWAY, Pa., April 29, 1902.

It gives me great pleasure to say a kind word in behalf of Williamsport Dickinson Seminary. My daughter has been a student in the institution for the past two years, and the mental and moral training she is receiving is so thorough that I entertain no fear for her future success, but feel that she is being fitted for any sphere in life.

Wishing you and the institution may live long and prosper, I am  
Yours respectfully,

C. G. MINICK,  
Bark and Land Superintendent for Elk Tanning Co.

CLEARFIELD, PA., April 29, 1902.

Three members of my family have attended the Seminary, and I expect to send one or two others in the near future. I have a high appreciation of the institution, especially of its discipline and moral and religious influence. Parents can feel perfectly safe to put their children under the care of Rev. Edward J. Gray, D. D., and this is more than can be said of the presidents of some other institutions.

Very sincerely, J. E. GEARHART.

HASTINGS, PA., April 28, 1902.

Williamsport Dickinson Seminary possesses home comforts, healthfulness, good discipline and the best facilities for mental and moral culture, while it prepares its students for all elevating social requirements. Being a patron for several years, these features commend themselves to me, and with pleasure I commend the school to all seeking educational advantages.

J. HORNING, Pastor M. E. Church.

RAMEY, PA., April 29, 1902.

My knowledge of Williamsport Dickinson Seminary was obtained by three of my children—a son and two daughters—graduating at this institution of learning. I consider it a first-class school in every

respect. The care they receive and the protection thrown about them, I consider equal to the parental roof. For location, health and cleanliness it cannot be excelled.

I can heartily recommend those wishing to educate their children to the Seminary at Williamsport, Pa.

JAMES H. MINDS, Coal Operator.

BEECH CREEK, April, 1902.

I gladly recommend Williamsport Dickinson Seminary to parents seeking a good school for their children, or to any one seeking a higher education. Having a son a graduate of this institution I know it to be noted for its healthfulness, home comforts and facilities for excellent mental and moral training.

J. E. TIBBINS, M. D.

RALSTON, PA., April 30, 1902.

After having one son graduate and two daughters take a partial course at Williamsport Dickinson Seminary, we are glad to say we have been much pleased with the school, and expect to have another son enjoy its splendid privileges the coming school year.

Yours fraternally,

F. ADAMS, Pastor M. E. Church.

SUNBURY, PA., April 30, 1902.

I cheerfully commend Williamsport Dickinson Seminary to such as may be seeking to acquire a higher education, and to parents who may desire to place their children in a school well located from a sanitary standpoint, with many home comforts, excellent discipline and with superior facilities for mental and moral culture. My information relative to the school is chiefly derived from my two daughters each of whom spent three years in the Seminary as a student.

Respectfully,

URIAS BLOOM, Cashier of Bank.

MADISON, N. J., April 26, 1902.

Three delightful, profitable years a student make it a pleasure for me to state that a thorough, Christian training can be secured at Williamsport Dickinson Seminary. The firm but kindly discipline induces and fosters habits of study and the spirit of self-mastery. The dignified social life of the school is uplifting and refining; the Christian influence ennobling; the intellectual training most excellent; the morals of the school such as tend toward noblest character.

To all who desire a good education, I most heartily recommend Williamsport Dickinson Seminary.

J. HOWARD AKE, Student Drew Theological Seminary,

LEWISTOWN, PA., April 28, 1902.

For twenty-seven years I have been in close touch with the Seminary, three years a student, graduating in 1881, my wife a student later, my daughter graduating 1902, and three years pastor of the Mulberry Street Methodist Episcopal Church. I can conscientiously testify to the efficiency of the President, Dr. Edward James Gray, the common-sense discipline, the splendid moral tone, and the thorough mental drill of the students. Endowment is a pressing need of the school.

G. W. STEVENS, Pastor M. E. Church.

BALTIMORE, MD., April, 1902.

From my knowledge of Williamsport Dickinson Seminary, through my daughter's life there, I consider the mental training very thorough,

the care for physical condition of the student exceedingly thoughtful, and the moral influence of the very best. I can, therefore, cheerfully recommend it to any parent who is seeking a first-class school, where mind, body and spirit shall be thoroughly trained.

SARAH E. SEAGER, Vice-Principal Public School.

MARION STATION, MD., April, 1902.

I spent one year at Williamsport Dickinson Seminary, and wish that I could have completed my education. My son spent four years in the Seminary, and he has no regrets for attending the institution.

The discipline of the school is good, the location is beautiful, the surroundings are healthful and the teachers are thoroughly fitted for their work.

I advise any young person wishing a good education to send for a catalogue.

NATHAN T. CONNOR, Post Master.

BOSTON, MASS, April 29, 1902.

I take great pleasure in writing you this letter. My sisters have never ceased speaking of the good which they received through the teachings of yourself and your assistants. My younger sister, who was always an invalid, I think was never ill a day in Williamsport, and when through school was greatly improved by the many advantages which your school had to offer. Yours very truly,

EDWARD R. GRABOW,

Of Ainslie & Grabow, Proprietors of New Ocean House, Swampscott, Mass.

LAURELTON, PA., April 29, 1902.

I consider Williamsport Dickinson Seminary one of the leading schools of our State. The facilities for mental and moral culture are complete, the discipline most beneficial, home comfort and healthiness unsurpassed. My opinion is based mainly on the training given to two of my children, attending the school a total of six years, and the training of many young men and women who have gone from the school to succeed in whatever they have undertaken. To their training at the Seminary, many of them have cheerfully acknowledged their success in life was due.

S. W. RUTHERFORD, Merchant.

JERSEY SHORE, PA., May 1, 1902.

Williamsport Dickinson Seminary prepared my son thoroughly for college. Its facilities, healthfulness, present improved comforts are very special. The Music Hall and its system of teaching may be also most highly commended. The institution should be over-crowded with students.

Yours very truly,

W. V. GANOE, Pastor M. E. Church.

STRASBURG, PA., April 30, 1902.

I have been entrusted with the education of three daughters, the eldest graduated at Hackettstown Collegiate Institute; the second at the Woman's College, Baltimore, and the youngest elected Williamsport Dickinson Seminary, and is now finishing the second year.

From what I know, my estimate on moral lines gives Williamsport Dickinson Seminary the precedence of the three. The social and home life is fine. The supervision for the best interest of a child in the formative period of life could not be better at home.

Therefore, commending the Seminary to all parents who want a school to which they may leave their children with confidence in having their interests guarded as they would at home, I remain,

Respectfully,

W. K. BENDER, Agriculturist and Insurance.

REISTERTOWN, PA., April, 1902.

After spending three years in Williamsport Dickinson Seminary I heartily recommend it to parents desiring for their daughters a liberal education in the Classics or Arts. BEULAH E. MILLER,  
Teacher Frankland High School.

RAYS HILL, PA., April, 1902.

I have one son a graduate of Williamsport Dickinson Seminary, and another a student there at time of writing. I think the school excels in the opportunities and advantages it affords to poor young men and women, the moral and religious influence it exerts, and in the social advantages it offers; life there partaking much of the home spirit. The contact with goodness and culture in both sexes, the excellent instruction received has such an influence as cannot fail to have a good effect upon the life subject to them.

Sincerely,

ROBERT M. SKILLINGTON, Farmer.

HEADSVILLE, W. VA., May 5, 1902.

It gives me great pleasure to recommend Williamsport Dickinson Seminary to the public, having had a daughter, relatives and friends graduate from it. It is Christian to the core, and can give a reason for the faith that it maintains. It furnishes a healthful home and a practical education. ISAAC CARSKADON, Farmer.

SHAMOKIN, PA., May 5, 1902.

It affords me great pleasure to bear favorable testimony respecting the home and religious life of Williamsport Dickinson Seminary.

My knowledge of the school has been obtained principally from having my three children there, covering a period of more than seven years, all of whom graduated from that institution. The discipline and the facilities for mental and moral culture are of the best. I heartily commend the school to parents or guardians having children to educate.

Respectfully,

C. L. BENSCOTER,

Pastor Second M. E. Church.

NEW WASHINGTON, PA., April, 1902.

I cheerfully recommend Williamsport Dickinson Seminary to any parent wishing a good home and school for son or daughter. I have had five of my family in the school, and spent some time there myself with a very sick daughter. The kindness shown us at that time will never be forgotten. Their instruction has been very satisfactory. MRS. MARY McMURRAY, Merchant.

ANNAPOLIS, MD., May, 1902.

My knowledge of the school is personal, for three of the happiest years of my life were spent there.

The discipline is excellent, and so, also, the systematic way in which everything is done. I have never forgotten the kindness shown toward me, and gladly take the opportunity to speak a good word for the school. The place is like a great home.

FRANCES M. BASIL, Music Teacher.

CHICAGO, ILL., May 2, 1902.

We think few schools can equal Williamsport Dickinson Seminary, in healthfulness and discipline, and from my personal observation while there I saw that Dr. Gray would take a parent's care of his pupils.

Yours truly,

W. J. HEMSTREET, Insurance Agent

## JERSEY SHORE, PA., May, 1902.

I am very glad, indeed, to commend Williamsport Dickinson Seminary. My knowledge of the school is not personal, having never been a student, but I have been impressed with the excellency of the school since my daughter spent two years there.

The splendid instruction in the class-room, the atmosphere of high thinking, with the excellent musical advantages and the healthful location, combine to make it an institution worthy of highest recommendation.

Very truly yours,  
C. B. SEELY, Editor.

## TOWN HILL, May, 1902.

Williamsport Dickinson Seminary is to be commended for the inspiring influence it exerts upon the life of young people. This influence is due to the three factors which dominate the life and work of the school:

(1) Her homelike-qualities; she seeks to provide for the health and happiness of all.

(2) Her methods and discipline; she endeavors to instill the value of system into each life.

(3) Her facilities for mental and moral culture. Her highest aim is to supply the world with highest types of manhood and womanhood. While she endeavors to enlighten and expand the mind, she ever keeps before her the fact that heart-culture—love toward God and man—is equally, if not more, necessary.

I can attest to her power and influence upon my life, having passed her curriculum, and readily recommend her to all seeking a good home and a higher education.

W. L. ARMSTRONG, Minister.

## PHILADELPHIA, PA., May 14, 1902.

I was for several years a student in Williamsport Dickinson Seminary, and three times a conference visitor. I have been for the last three years a patron, and as secretary of the Philadelphia Conference Educational Society I have for two years conducted a correspondence with the President and with such students as were beneficiaries of the said Society.

I most cheerfully and unqualifiedly recommend the Seminary to all parents and guardians who desire a thorough and a Christian education for their children and wards. Among the special attractions of the Seminary is its home-like character, to which Mrs. E. J. Gray has largely and effectively contributed, and for which hundreds of students will hold her in grateful and loving remembrance.

The institution has done much for education and religion, and deserves the generous support of the Church.

S. A. HEILNER,  
Pastor St. James M. E. church.

## TYRONE, PA., May 1902.

My acquaintance with Williamsport Dickinson Seminary covers a period of twenty-five years. In location it is delightful and healthful, in home comforts and social life all that could be desired, in intellectual and moral training unsurpassed.

Two of my sons being graduates, and myself having been a resident pastor in Williamsport for four years, have brought me into close touch with the institution.

With this personal knowledge of its life and work, I most heartily commend it to those desiring a higher education.

J. A. WOOD, JR.,  
Pastor First M. E. Church.

BEVERLY, MASS., May, 1902.

I count it a great privilege to have been a student at Williamsport Dickinson Seminary, which is beautifully situated in a most healthful part of Pennsylvania. The educational advantages of the school are excellent. Its discipline tends to prepare for the sterner duties of life—firm, yet not burdensome. The Christian atmosphere which pervades the school is both helpful and edifying. Its highest aim is to develop those qualities which make noble manhood and womanhood.

FLORENCE BARTCH FORD.

FREDERICK, MD., May 20, 1902.

I can with great confidence recommend Williamsport Dickinson Seminary to the patronage of the public. Having been myself a student at the institution, I have personal knowledge of its superior advantages in its pleasant and healthful location, and its refining moral culture, and I believe it to be worthy of a liberal and general support from all who appreciate the value of a superior education.

JOHN C. MOTTER, Judge Circuit Court.

PHILIPSBURG, PA., May 16, 1902.

I regard Williamsport Dickinson Seminary as at least the equal of any school of its kind in this country. I have been in touch with it for nine years. Three of my children were graduates. I am deeply impressed with its home-like character, its healthfulness, the mildness but firmness, of its discipline, and the facilities for mental and moral culture to be found there.

I have no hesitancy in commending it to those seeking higher education, and to parents who desire a safe place for the education of their children.

G. D. PENEPACKER, Pastor M. E. Church.

WILLIAMSPORT, PA., May 17, 1902.

As a neighboring minister of the Williamsport Dickinson Seminary, as pastor of those students who are Presbyterians, and a father whose daughter spent two years in the Seminary, I wish, after five years' close observation, to express my strong admiration of and gratitude for the spiritual tone, moral carefulness, intellectual thoroughness, and general worth of the institution.

WILLIAM DAYTON ROBERTS,

Pastor First Presbyterian Church.

WOOLRICH, PA., May 27, 1902.

Having been a student in Williamsport Dickinson Seminary for three years, a part of which period was under the early administration of Rev. Dr. Gray, and since having had one son and two daughters in attendance, one of whom graduated and the other a student in the institution at the present time, I can say that in my judgment it is a safe home for young people, especially for young ladies. As all gain rapidly in weight and physical strength, it is certainly very healthful. The facilities for mental and moral culture are excellent, while the literary societies are a great help to industrious students. I commend the institution to parents seeking a safe and comfortable home, as well as a good school, for their children.

M. B. RICH, Woolen Manufacturer.

HOYTVILLE PA., May 24, 1902.

I take great pleasure in commending Williamsport Dickinson Seminary, having had a daughter graduate from it. The school proved entirely satisfactory, especially as to discipline and home comforts, and I would recommend it to those seeking a higher education.

G. W. DARBY, Farmer.

## MILLERSBURG, PA., May, 1902.

Three of my children have graduated from "Old Dickinson," and I also graduated in 1863. I consider it a fine institution, and for discipline, culture, healthfulness, and Christian training it has no equal in the country.

S. S. BOWMAN, Attorney-at-Law.

## JEFFERSON CITY, MO., May, 1902.

My knowledge of your Seminary, derived from my daughters, who were day pupils while in attendance, enables me to speak highly of its healthfulness, discipline and excellent features for mental and moral culture, resulting in their marked advancement, general improvement, and successful attainments while remaining under its care.

Respectfully,

OSCAR C. BURCH,  
Cashier First National Bank.

## GIRARDVILLE, PA., May, 1902.

I have received my knowledge of Williamsport Dickinson Seminary from my daughter, who recently graduated from that institution.

The facilities for mental culture and development are excellent, the variety of courses gives the student the opportunity of selecting the line of study for which he is best adapted. The location of the Seminary is not only pleasant, but healthful as well—a fact of great importance to be considered in connection with our education.

Respectfully,

H. B. JOHNSON,  
Justice of the Peace.

## BALTIMORE, MD., May, 1902.

I consider the work of the Seminary, over which you preside, as of a very high order. The school is admirably located. Parents need not hesitate to send their children to an institution of learning where the discipline, moral atmosphere and mental training are so excellent as at Williamsport Dickinson Seminary.

I have been a resident of Williamsport for twelve years, and am a patron of the school, and have had opportunity to know whereof I speak.

Yours very cordially,

S. G. READING,  
Pastor Hampden Baptist Church.

## ALTOONA, PA., May, 1902.

It affords me a great deal of pleasure to commend Williamsport Dickinson Seminary to all persons desiring to send their children to a school embracing all the comforts of a home, healthfulness and every facility for mental and moral culture. Perhaps it might be well to mention that my reason for recommending the school is based on having had a daughter graduate from it last year, after being with you three years.

Yours very truly,

W. W. RUDISILL, Jeweler.
